

Editor's Note

The global COVID-19 crisis is drastically changing our normal life, leading to a new norm of (our life). Global vaccination has been implemented and the basic knowledge of COVID-19 vaccines is important. In this issue, we have invited special article on COVID-19 vaccine as well as other interesting articles on medical sciences. With the difficult time we have now, AMJAM still tries the best to publish high quality work on medical science to contribute knowledge in both medical and alternative medicines. We also aim to disseminate the knowledge on COVID-19 by publishing update papers regularly in our journal. We hope that our topics will be of interest and helpful to the readers in science communities.
